

SABELO

MEET SABELO

Sabelo Ndlovu is a multi-talented entrepreneur and innovator committed to leveraging technology to create meaningful social impact. With a passion for transforming lives and solving real-world challenges, Sabelo combines his technical expertise with a deep sense of purpose to drive change in underserved communities.

His vision is to bridge the gap between technology and empowerment, ensuring that no one is left behind in the digital age. As the Founder and Chairman of The Future Initiative, a non-profit organization, Sabelo has been at the forefront of inspiring youth to discover their purpose and bringing opportunities to township communities.

WHAT I DO

My portfolio spans a diverse range of IT-driven solutions, beginning with leveraging technology to strategically shape client solutions and extending to software development, system design, and digital innovation aimed at enhancing efficiency, visibility, and scalability. I specialize in developing custom applications, IT systems, and digital tools that drive business growth and consistency. In addition, I am a speaker dedicated to education and empowerment, focusing on technology, business, purpose, and personal development—helping others harness IT to build impactful and future-ready brands.

PROJECTS

Lead Ambassador – Technopreneurship Centre, University of Johannesburg

As a Student Ambassador, I represented the Technopreneurship Centre by promoting innovation, entrepreneurship, and digital skills among students. My role included engaging peers in tech-driven initiatives, supporting workshops and hackathons, and fostering awareness of opportunities in the 4IR space.

In this role, I not only support the operational aspects of these initiatives but also inspire and guide students to leverage technology for business development and social impact. I actively contributed to creating a culture of innovation and inspired students to leverage technology for business and social impact.

Hackathon Mentor - Telkom 10 Hackathon

As a mentor at the Telkom 10 Hackathon, I guided participating teams through the innovation process, providing support in ideation, problem-solving, and solution development. My role involved advising on both the technical and business aspects of projects, helping teams align their solutions with industry needs while ensuring feasibility and scalability. I engaged with participants throughout the event, offering mentorship on coding, pitching strategies, and design thinking principles to strengthen their final outputs.

Hackathon Mentor - Sefako Makgatho Health Sciences University (SMU) Hackathon

At the SMU Hackathon, I served as a mentor supporting student innovators as they developed technology-driven solutions to healthcare and community challenges. I worked closely with teams to refine their ideas, validate problem statements, and structure their solutions using human-centered design and IT best practices. My role also included guiding teams in presentation and pitching techniques, ensuring their solutions were not only technically sound but also impactful and well-communicated.

PROJECTS

Telkom Future Coders Programme

Facilitated sessions for the Telkom Future Coders Programme, introducing foundational concepts in blockchain and IoT to aspiring tech enthusiasts. These sessions not only equipped participants with essential digital skills but also broadened their understanding of cutting-edge technologies and their real-world applications.

Mentor for the Minecraft Smart Kasi Challenge

Mentored participants in the Minecraft Smart Kasi Challenge, a project that encouraged learners to reimagine their townships using Minecraft as a tool for urban planning and innovation. This initiative fostered creativity, problem-solving skills, and a vision for a better future in township communities.

PROJECTS

Facilitator for Digital Literacy in Underserved Communities

Organized and facilitated digital literacy sessions aimed at bridging the digital divide in underserved communities. These sessions have empowered hundreds of individuals with the knowledge and skills to navigate the digital world, enhancing their access to education and employment opportunities.

Hackathon Mentorship

Mentored hackathons organized by organizations such as Geekulcha and the University of Johannesburg. Through these engagements, I have inspired participants to push boundaries, develop innovative solutions, and build connections within the tech ecosystem.

MEDIA FEATURES

Over the years I have been Featured in the following media outlets for my social and business innovative work and expertise, showcasing my impact and reach in the industry and communities.
